The NPM-1 revolutionizes the traditional Hi-Fi system, combining BluOS® hi-res music streaming and audiophile-quality audio performance with seamless control from any smartphone, tablet, or desktop. The NPM-1 gives you limitless access to the world of music streaming.

The NPM-1 helps you manage and stream all your music quickly and efficiently. From syncing large high-resolution music libraries over your network, to building and streaming your favourite playlists from popular music services, the NPM-1 is fast and precise with zero loss in sound quality.

Using the BluOS app for smartphone, tablet or desktop, the NPM-1 easily connects to your home network and lets you control your music wirelessly from anywhere in the home. Access, stream and listen to any music from anywhere—hi-res studio-master recordings, streaming music services, Internet radio stations, or computer where your music is stored. Its rich, modern app interface and simple multi-room controls provide everything you need in the palm of your hand.

- Connect your Hi-Fi system to popular streaming services, internet radio stations, and music libraries stored on your home network
- Stream lossless music, up to 24-bit/192kHz, in bit-perfect quality from anywhere in the home
- Use your smartphone, tablet or laptop as a remote with the whole BluOS music experience at your fingertips
- Sync 200,000-track music collections for on-demand streaming, or play music directly from your phone or tablet
- Group with other BluOS enabled speakers and systems and play your music in perfect sync in multiple rooms around the home
